MR. REESE: Good morning. Welcome.

I think I have met all of you, but I am Randall Reese from Skadden Arps, and as you are all aware, Skadden is counsel to MobileAria and the affiliated debtors and debtors in possession in their Chapter 11 cases currently pending in the United States Bankruptcy Court for the Southern District of New York, before Judge Robert D. Dran.

With me here at the table is Steve
Olsen, the Director of Mergers and
Acquisitions of New Markets for Delphi,
John Lyons of Skadden Arps, Christy
Branson of DLA Piper Rudnick and Milledge
Hart of Pagemill Partners.

As you are all aware, on June 6th, 2006, MobileAria and the other debtors filed a motion seeking approval of, among other things, certain bid protections and certain bidding procedures, which is why we are all here today.

In addition, the bid protections

were afforded the stalking horse bidder, Wireless Matrix USA, Inc., which I will refer to as Wireless Matrix going forward and, ultimately the approval of a sale to Wireless Matrix and substantially all of the assets of MobileAria, pursuant to an asset sale and purchase agreement, dated June 6th, 2006, subject to the completion of a competitive bidding process. That

motion was entered on the docket as

docket entry number 4040.

The court held a hearing on June 19th, 2006, and entered an order approving certain bidding procedures, and that order was entered on June 22nd at docket number 4328, and I will refer to that order as the bidding procedures order, just so that we are clear.

This is the time and place for the auction of the assets of MobileAria, as provided by the bidding procedures order.

As all of you are aware, we have a court reporter here, and the auction is being transcribed, and we will file a

complete transcript of the auction with the Bankruptcy Court prior to the commencement of the sale here.

Initially, I will describe the procedures that are going to be used for today's auction and enter certain matters into the record.

First, we have marked five exhibits to be entered into the record. When you checked in this morning, each of you should have received a vellum bound document with all of the exhibits, with the exception of the final one, and if anybody did not, please let us know and we will be happy to get you a copy.

We marked, as Exhibit Number 1, the MobileAria bidding procedures order dated June 22nd.

And marked, as Exhibit Number 2, is the bid submitted by Wireless Matrix, and that exhibit includes the asset sale and purchase agreement dated June 6th, 2006, between Wireless Matrix and MobileAria, and also includes all of the disclosure

2 schedules included therewith.

Marked as Exhibit Number 3 is the bid provided by @Road Inc., which I will refer to as @Road. This exhibit includes the following items: a letter dated June 28th, 2006 from James D. Fay, Senior Vice President Corporate Affairs of @Road to Richard Lind, President of MobileAria; and an asset sale and purchase agreement dated June 28th, 2006, executed by @Road, the unmarked disclosure schedules included therewith; a marked copy of the asset sale and purchase agreement, reflecting modifications from the asset sale and purchase agreement, entered into between MobileAria and Wireless Matrix, the marked disclosure schedules thereto; and the form 10-Q dated March 31st, 2006 for @Road.

Marked as Exhibit Number 4 is the MobileAria sale motion dated June 6th, 2006 that I referred to earlier.

And finally, marked as Exhibit Number 5, is this morning's sign-in

sheet. This will obviate the need for each of you to be introduced on the record, and I would note, in addition, that Sean Corcoran, Deputy General Counsel of Delphi is participating

telephonically today.

Those are all of the exhibits that we are designating for the record at this time. We reserve the right to include further exhibits as the auction continues, should we need to.

As everybody here is aware, the bidding procedures order provides that any competing proposals for the assets of MobileAria be received by MobileAria, its advisers, Delphi Automotive Systems LLC, which is MobileAria's majority shareholder, the advisors to the official committee of unsecured creditors, and the advisors for the agent for the pre-petition lenders no later than 11 a.m. on June 29th, 2006.

By that deadline only one competing bid had been received, which is the bid

of @Road that we marked as Exhibit Number

3. Pursuant to @Road's binding bid

4 letter and asset sale and purchase

5 agreement, @Road offered MobileAria \$7.5

6 million in cash consideration for

substantially all of the assets of

8 MobileAria.

The other material terms of @Road's proposed asset sale and purchase agreement are substantially similar to the terms of Wireless Matrix' proposed asset sale and purchase agreement, with the primary exception that @Road has deleted the requirements contained in schedule 5.1.16.A, that four of six certain key employees, as defined therein, remain employed with MobileAria at the closing.

In addition, @Road has provided MobileAria with a good faith deposit in the amount of \$500,000, as required by the bidding procedures order.

After independent evaluation by MobileAria and its directors, in

1.0

accordance with the bidding procedures order, MobileAria's directors determined that @Road's bid was a qualified bid, as defined in the bidding procedures order, and, therefore, on June 30th, 2006, my colleague, Allison Verderber Herriot, contacted all parties entitled to attend this auction by e-mail and advised them that an auction would be going forward.

Those parties included @Road,
Wireless Matrix, the creditors committee,
the equity committe, and the agent for
the pre-petition secured lenders.

Counsel to the equity committee declined an invitation to participate here in today's auction. Representatives of all of the parties entitled to participate are here today.

There are no other parties that have submitted a qualified bid for the assets of MobileAria at this time and, therefore, pursuant to the bidding procedures order, only Wireless Matrix and @Road are entitled to bid at today's

24

25

auction. And, as each of you know, each of the bidders is, as well as the creditors committee and the pre-petition secured lenders, have been assigned their own conference room today to use for private conversations.

Shortly, we intend to open the floor to allow the opportunity for additional competing bids to be made by Wireless Matrix, if it intends to do so, or for any of the parties here to have an opportunity to make any statements on the record, if they would like to.

MobileAria reserves the right to take recesses from time to time today have private conversations with one or more of the bidders or with our creditors.

I will not read into the record all of the bidding procedures that are laid out in the bidding procedures order, and it has been marked as an exhibit. Everyone has a copy of it.

However, there are two elements of

the bidding procedures that I do want to emphasize.

First, pursuant to section 9.1.2 of the asset sale and purchase agreement between Wireless Matrix and MobileAria, if Wireless Matrix submits a subsequent bid, as defined in the bid procedures, Wireless Matrix will be subject to all of the bidding procedures, including such subsequent bid shall be irrevocable and must stay open as an alternate bid until the earlier of two business days after the closing of the sale of MobileAria's assets or August 31st, 2006.

Of course, pursuant to the bidding procedure, all subsequent bids of @Road are required to stay open for the same period. Okay.

Second, Wireless Matrix shall be entitled to a credit in the amount of the break-up fee, which is equal to \$195,000, in calculating the value of any subsequent bid made by Wireless Matrix in today's auction. Therefore, by way of

1 2 example, if Wireless Matrix were to make 3 a subsequent bid in the amount of \$7.6 million, MobileAria would receive cash 4 consideration from Wireless Matrix in the 5 6 amount of \$7,405,000 at closing. 7 MR. ROGOFF: Canadian? 8 MR. REESE: Is that the best 9 exchange rate today? MR. HART: We will give you the 10 11 Canadian credit, for sure. MR. REESE: Both parties, please, 12 13 confirm on the record that that is, in 14 fact, their understanding of the bidding 15 procedures. 16 MS. IZURIETA: Yes. 17 MR. FAY: Yes. MR. REESE: At this point in time, 18 19 there are no specific additional 20 procedures today, besides those laid out 21 in the bidding procedures, and we, of 22 course, encourage each of Wireless Matrix 23 and @Road to put on the table your 24 highest and best bid at today's auction. 25 We will, of course, do everything

that we can to advise you of any particular concerns that MobileAria has or that any of the creditor constituencies express with respect to each of your respective bids.

When neither bidder desires to make any further bid, we will recess the auction at that time and meet privately with our creditor constituencies who are here today to consult with them.

After that, as quickly as possible, depending on the time the board of directors of MobileAria will meet and deliberate and determine in the exercise of their business judgment, which bid they believe to be the successful bid, and which bid they determine to be the alternate bid, and at that point, we will advise both of the parties that, which bid has been determined to be the successful bid and which bid has been determined to be the successful bid and which bid has been determined to be the alternate bid, and we will formally close the auction.

1 2 would remind the parties that pursuant to 3 the bidding procedures and the bidding 4 procedures order, no bid has been 5 accepted by MobileAria until Judge Drain 6 has approved that bid at the sale hearing 7 and an order has been entered providing for that determination. 8 9 As a housekeeping matter, we would 10 like to request that each of the bidders 11 designate a representative to speak on 12 your behalf, when and if you decide you wanted to speak on the record at today's 13 auction. 14 15 Therefore, I would ask that each 16 designated representative state his or 17 her name and title for the record and 18 affirm that such person is the authorized 19 representative of the company for 20 purposes of the auction. 21 We will go in alphabetical order. 22 @Road. 23 MR. FAY: My name is J.D. Fay from 24 @Road.

MR. REESE:

Would you state your

25

1 position on the record. 2 Senior Vice-President, 3 MR. FAY: Corporate Affairs, General Counsel. 4 MR. REESE: Wireless Matrix. 5 6 MR. ROGOFF: Good morning. Adam 7 Rogoff, Kronish Lieb, on behalf of 8 Wireless Matrix, and I will be speaking on behalf of my client. 9 MR. REESE: Thank you. 10 I would also ask that at this time 11 each of the designated representatives 12 13 indicate on the record, that you have 14 full authority to speak for the company 15 that you represent and that your participation at the auction and anything 16 17 that you say on behalf of your company or your client is said with the full 18 authority of the company, and that no 19 further approvals other than Bankruptcy 20 21 Court approval will be necessary in order for whatever you offer on the record to 22 23 be binding with respect to your company, so that everyone here knows that what, in 24 25 fact, is offered on the record is a real

1 offer. 2 3 We will go in the same order. MR. FAY: I confirm that. 4 5 Subject to being kicked MR. ROGOFF: 6 by my client, I confirm that. 7 MR. REESE: Thank you. We also 8 believe that it will be helpful for the 9 primary creditor constituencies that are 10 here today to be free to ask questions on 11 the record to ensure that the terms that 12 are put on the record are clear and 13 unambiguous with respect to all of the 14 parties here; therefore, we welcome the 15 participation of the representatives of the creditors committee and the 16 17 pre-petition secured lenders here today, 18 and appreciate your participation. 19 At this point, I would ask, first, 20 that the Wireless Matrix representative 21 affirm that, to the best of his 22 knowledge, Exhibit Number 2 contains the asset sale and purchase agreement as 23 24 agreed to between Wireless Matrix and

MobileAria, and that the schedules are,

25

1 2 to the best of your knowledge, the final 3 versions of such schedule. 4 MR. ROGOFF: I confirm that my 5 client has so advised me. 6 MR. FAY: Okay. 7 MR. REESE: At this point, I would ask the @Road representative to affirm, 8 9 to the best of your knowledge, that 10 Exhibit Number 3 represents @Road's offer for the asset of MobileAria. 11 12 MR. FAY: Although I have not 13 reviewed the whole document, it looks like that that is what we sent. 14 15 MR. REESE: Thank you. 16 Finally, one additional issue which 17 we have discussed this morning, but to 18 just put on the record: As everyone here is probably aware, Sun Micro Systems Inc. 19 20 filed an objection to the assumption 21 assignment of MobileAria's license 22 agreement with Sun on June 30th, which 23 objection was entered in docket number 24 4433. 25 At the present time, it is

1	
2	MobileAria's belief that the only license
3	agreement with Sun is a binary code
4	license agreement covering the Java 2
5	platform standard edition run time
6	environment, 5.0 software, which is open
7	source software available on a Sun
8	Website for download without charge and
9	which, I am told, is comprised of the
10	following three elements: the J2SE
11	version 1.4.2 and 1.5 run time.
12	MR. BENNETT: Repeat that one more
13	time.
14	MR. REESE: Sure.
15	J2SE version 1.4.2 and 1.5, run time
16	version.
17	MS. BRANSON: It is listed on the
18	schedule.
19	MR. REESE: The second element is
20	the Sun Java Mail Library.
21	The third element is the Sun Java
22	Bean Activation Framework.
23	MR. ROGOFF: As I can just object,
24	as you can probably see by my client
25	physically writing this down, this is the
l	

first that we have been informed of the objection. We have not seen it, we have not had an opportunity to assess what, if any, impact it has.

I would request if there is a copy of the objection, that somebody can provide it, so that we can see the specificity of what was objected to and, obviously, we will need to take into account the objection with respect to what our rights are under the contract.

MR. REESE: Understood, Mr. Rogoff. We will attempt to get you a copy of it, so that you can review the objection. However, I would note that MobileAria uses the software internally and the software is not incorporated into MobileAria's products that are sold.

We have been in communication with Sun's counsel and we are hopeful that the objection will be withdrawn, based upon the fact that this software is publicly available without charge, from a Sun Website. And there are no licensing fees

associated with this product.

However, if Sun is not willing to withdraw its objection for any reason, MobileAria does not believe that it is in anyone's best interest to engage Sun at this time, and would request that each bidder consider removing that contract from the list of -- scheduled for contracts, which is schedule 2.1.1, and agree that such license agreement not be assumed by MobileAria or assigned to the bidder in the event that Sun does not withdraw its objection.

We will, however, get you a copy of it, so that you have an opportunity to review it.

With that clarification on the record, we would now open the floor for any statements from the interested parties here today, or any further bids from the parties.

MR. ROGOFF: In terms of just a statement, perhaps a clarification: One, I appreciate your views with respect to

the Sun Micro System objection. We will need to look at the objection and consider both the objection and its impact on the contract and, of course, your request in due course.

Putting that aside for a moment, in looking at the @Road agreement that was submitted, we did note that there were certain language changes that were made to their agreement that we don't believe have an economic impact in terms of the differential or the Wireless Matrix agreement, and it would be our intent to conform language that was placed into the @Road's agreement, into the Wireless Matrix agreement and, with specificity, what my client has advised me so far would be the language which is on schedule 5.1.6.B, that is 5.1.16.B.

You guys can come up with any other sub-elements of that -- which just provided certain specificity to provisions that we believe are already covered in the Wireless Matrix agreement.

1 2 But we would ask that our schedule, 3 likewise, be conformed to the same 4 wording language that was submitted by 5 @Road. 6 MS. BRANSON: Subsection B. Actual 7 agreement --8 MS. IZURIETA: The wording on the 9 bottom of the employee schedule that you 10 mentioned earlier. 11 MR. REESE: I believe that is schedule 5.16.A, rather than .B. 12 13 MR. ROGOFF: Not that one. Not 14 .5.1A. 15 MS. IZURIETA: Sorry. 16 MR. ROGOFF: I am talking about 17 schedule 5.1 -- sorry, did I say, 5.1. 18 16B, seller performance, specifically, it 19 says "Seller is not paid employee 20 performance bonuses due in the amount 21 aggregating \$114,000." It was then added 22 to the @Road's agreement, the following 23 language, which we believe is covered in 24 our agreement; so, it is not an economic 25 change, but we would like the

1	
2	specificity. The wording was added
3	"Seller agrees to pay such employee
4	performance bonuses prior to the closing
5	day." It is that additional sentence
6	that we would be adding to our comparable
7	schedule.
8	MR. REESE: Okay. In fact, I am
9	informed that those bonuses have, in
10	fact, been paid.
11	MR. ROGOFF: Thank you.
12	That is the only clarification that
13	we have before opening the auction.
14	MR. REESE: Okay.
15	MR. FAY: I would like to have a
16	copy of the list of attendees.
17	MR. REESE: Sure.
18	With the cross outs, we can get you
19	a copy of that exhibit.
20	MR. FAY: Thank you.
21	MR. REESE: Any additional comments,
22	or is Wireless Matrix prepared, at this
23	time, to provide a subsequent bid?
24	MR. ROGOFF: If there are no other
25	comments, yes.

MR. REESE: The floor is yours.

MR. ROGOFF: We are going to bid \$7.6 million. We are going up by the \$100,000 bidding increment. In addition, we are going to modify the agreement to, likewise, conform with the @Road's agreement, with respect to schedule 5.1.

16A, to delete the condition which is listed at the bottom of that schedule that was referred to in your introduction, regarding employment of certain key employees. So, our bid is both the \$100,000 bidding increment increase, as well as the deletion of the condition reflected on the bottom of

MR. REESE: Okay.

schedule 5.1.16.A.

For clarification, would all other terms of the agreement, as you proposed them, be on the terms of Wireless Matrix' existing asset purchase agreement, and you will not be adopting any of the additional changes reflected in the @Road markup?

MR. ROGOFF: Just a second.

I appreciate why you have asked that question and I suppose, before I answer that question, I would like to throw a question back at you because, what the heck.

We don't believe that there are any other changes that have been made to @Road's agreement, other than conforming to @Road's specifically.

Does the estate believe that there are other changes as between their agreement and our agreement that have any economic impact? And, if so, we would like to be advised as to what those are.

MR. REESE: I think, initially, one additional revision which we would point to, which we believe is favorable, and we would like to have included, is in section 3.1.4 of the agreement, which is entitled "retention bonus," and there is an additional sentence providing that the retention bonus shall be paid in accordance with the terms and conditions

outlined in purchasers offer of employment, which we do believe is favorable, and would like to have it included.

MR. ROGOFF: While my clients are reviewing that, I would ask you that, while I appreciate that you believe that it is favorable, is there any economic impact that is being given to that sentence? And, if so, what is the economic impact? How is that being quantified in terms of a higher and better bid from a monetary perspective?

MR. REESE: We don't believe that it affects the economic aspects of the bid, but we do believe it is a more favorable term. We have not assigned any value to it.

MR. ROGOFF: What I would like to request, and I appreciate why you have asked the question, we will reserve on commenting on that particular subsection, and all other aspects of our agreement, you know, are as presented, and we will

1 2 take into account in any future bidding 3 the company's request that we modify 4 section 3.1.4 of the agreement, to add 5 the additional language, but at this 6 point in the bidding process we are not 7 prepared to do that. 8 MR. REESE: And I just, for the 9 record -- any subsequent additional 10 subsequent bids of Wireless Matrix, 11 should we assume that those are, then, on 12 the same terms and conditions as you have 13 outlined, outlined then, with respect to 14 the agreement, unless you advise otherwise? 15 16 MR. ROGOFF: That is correct. 17 the Wireless Matrix agreement. 18 A PARTICIPANT: That was a short bid. 19 20 MR. REESE: All right. Any comments 21 from any other parties, at this time, 22 with respect to that? Um, what I would like to 23 MR. FAY: know is whether that is considered a 24 25 better bid. If you have a term that is

1 2 more favorable, that I think -- that you 3 think is part of the calculation, then I 4 think it is important, at least, for me 5 to know that you consider that a better 6 bid, so that the action shifts. 7 MR. REESE: Okay. I think, at this 8 point, we would, then, take a short 9 recess to caucus internally and determine whether or not we do believe that that 10 11 constitutes a qualified subsequent bid. 12 MR. LYONS: A very short bid. 13 take a five-minute recess. 14 (Recess.) 15 MR. REESE: Back on the record. 16 We are back on the record. 17 And the company, MobileAria, has considered the bid laid out by Wireless 18 Matrix and has determined that it is a 19 20 qualifying subsequent bid, and would 21 constitute the highest or otherwise best 22 offer for the assets at this time. 23 We will now open the floor. 24 MR. FAY: Okay. So, I think what we 25 would like to do, then, is take a brief

1	
2	caucus to consider the matter. We would
3	like to adjourn to our room.
4	MR. LYONS: Any estimate as to how
5	long you would be, as to whether we
6	should keep the people here?
7	MR. FAY: I think the people don't
8	have to be imprisoned here, but why don't
9	we go back and we will meet in the room
10	and maybe we can give you an estimate in
11	a moment or two.
12	MR. REESE: Thank you.
13	Off the record.
14	(Recess.).
15	MR. REESE: Back on the record.
16	MR. FAY: Yes.
17	MR. REESE: We are at the auction
18	for the assets of MobileAria, and we
19	would open the floor to other bids or
20	comments.
21	MR. FAY: Yes.
22	Thank you. One thing I would like
23	to do, first, is confirm, again, our
24	conversation earlier about how we
25	calculate subsequent bids. So, let's

```
1
        take the example of the current bid,
 2
 3
        which was $7.6 million.
 4
             Would it be your understanding that,
 5
        all other terms being equal, that the
 6
        qualifying subsequent bid would be $7.7
 7
        million?
              MR. REESE: All other terms being
 8
 9
        equal, that would be correct.
10
              MR. FAY:
                        In that case, what I would
        like to propose is: We would make a
11
12
        subsequent bid of 7.7 -- $7.7 million,
13
        and we do believe, of course, that all of
14
        our other terms are such that it makes
15
        the subsequent bid a superior bid.
16
             But if you do feel otherwise, we
17
        would like to know that.
18
              MR. REESE:
                          Okay.
19
              MR. FAY:
                        Thank you.
20
              MR. REESE:
                          I think one point that
21
       we would like to qualify, relating to our
22
       earlier discussion regarding section
        6.2.5, which deals with other approvals,
23
24
       we would like to confirm that you would
25
       be amenable to that item being modified
```

1 2 such that a party's failure to object to 3 a notice of assumption and assignment of 4 contracts to @Road would satisfy that and 5 it would not require an affirmative 6 consent. 7 MR. FAY: What I would like to understand is, is it appropriate for you 8 9 to actually have that term or question to be asked of Wireless Matrix, given that 10 11 they had the current, they had the 12 current bid, and this is sort of a new 13 term that you are bringing up for my bid? 14 MR. LYONS: This was a changed term in @Road's bid. Wireless Matrix doesn't 15 16 have that. 17 That is not correct. MR. REESE: MR. ROGOFF: Just the opposite. 18 19 MR. REESE: Currently -- that -- I 20 think it is a point that we qualified 21 early. We would like to qualify that 22 that language changed, and we do think 23 that it is section 6.2.5. @Road? 24 MR. FAY: I think I do understand 25 what schedule you are referring to,

third-party approvals, and my understanding is that the @Road draft included six contracts on the schedule, and the Wireless Matrix draft included seven contracts on the schedule, and your proposal is that this schedule be removed.

So, I think what I would like to understand: Is that your proposal?

MR. REESE: That is correct. There was a misstatement earlier. That provision does appear in both agreements.

MR. FAY: All right.

I would like to understand whether it is appropriate to actually consider this in the context of our bid, but it seems, because I don't know that -- I think it is probably more appropriate to have that comment first be addressed by the bid that is outstanding, which was, which is the Wireless Matrix bid.

MR. REESE: I guess our response would be that we think this is something we already discussed in a clarification,

1.1

and if you are not willing to include it, then we would, obviously, consider your bid on that basis. But we would like that clarification.

MS. SHULMAN: If I can clarify, I don't think that is what we are saying. I think what we are saying is, we are happy to address that issue, but procedurally, there is a higher and better bid on the table right now.

So, what we are saying is: We think it is appropriate for -- if you want this change laid out on the table, we can talk about it at that time.

But what Mr. Fay is saying, right now there is a higher, better bid, and since it is the same in both contracts, it is probably procedurally more appropriate better to address it with them first, and if they say they will change it or they don't want to change it, then that goes into your next question whether or not the bid is higher or better.

MR. REESE: We are happy to direct that question to you, whether or not you are willing to agree to that term. I will be happy for you to describe it.

MR. ROGOFF: A procedural clarification. We put a bid on that you already told us the bid is better and higher, the bid is to @Road, and I appreciate you --

You already accepted our bid as the higher and better bid. If they want to stop the auction and not bid further, that is fine with us. There is no further bid to us.

MR. REESE: Okay. I guess, at that moment, then, our response would be, we would consider a modification of that language to be an enhancement, and either party is free to include in any subsequent bid, your bid is on the table, if you can clarify whether it does or does not include that, that modification.

MS. SHULMAN: All right.

MR. FAY: One of the things that we

talked about earlier was potentially seeing the proposed language that would be related to this third-party approval section, the court order. Do you have that language that we could look at, as well?

MR. REESE: I believe you received a copy of a draft sale approval order with the initial pleadings. It should also be in your packet that you received this morning, as an attachment. It hasn't been changed yet, and I think we would be willing to provide, in that language, that subject to entry of an appropriate sale or subject to the entry of a sale approval order, providing that the failure to object will constitute consent, that, then, you would not need any further --

MR. ROGOFF: I will ask a point of clarification, because our schedule is different from their schedule.

Are you referring just to the addition on their schedule of the one

1 2 other contract, or are you referring 3 to --4 MR. REESE: We are referring to all 5 contracts. 6 MS. IZURIETA: You want to take all 7 contracts off of 6.2 --8 MR. REESE: Our view is that the 9 sale approval order provides that a party's failure to timely object to our 10 1.1 notice of assumption and assignment will 12 bind them and will be deemed to be an affirmative consent, if they fail to 13 14 object. 15 Therefore, we believe that the 16 provisions are necessary, and we would 17 like to have it approved, so there is not 18 a requirement that we seek affirmative 19 consent. 20 MR. ROGOFF: Without getting into 21 areas that we all don't like to talk 22 about as lawyers, what assurances -- and 23 I am not agreeing or disagreeing on 24 behalf of my client, I am getting 25 clarification of something that you are

raising now -- what assurances do we have that notice was actually given to or received by these people, that they had the opportunity to object and they elected not to object and that, legally, the court's order can, in fact, not result in any consequence?

We are kind of getting into a legal opinion area, as well as factual determination that these parties weren't simply served with the motion, but they received it and reviewed it and, therefore, had the ability to object and elected not to do so.

MR. REESE: With respect to notice of the proposed assumption and assignment to Wireless Matrix, the Debtors have filed the notice and affidavits of service in accordance with the terms of the bidding procedures order, demonstrating that, in fact, we have complied with the terms of bidding procedures order, and we would anticipate that any sale approval would include a

```
1
 2
        factual finding that, in fact, notice
 3
        was --
 4
              MR. ROGOFF:
                            All right.
                                        We
 5
              You know what, I will retract.
 6
              MR. REESE:
                           Thank you.
 7
              MR. FAY:
                       I guess the question is, I
 8
        quess, back to me.
 9
             Maybe you can help me clarify that,
10
        whether you, by raising this now, are
11
        ascribing some value to this term, and it
12
        would be helpful to know that value; so,
        that way we can assess our next
13
        appropriate bid. Because it might change
14
        our bid or, I guess our bid is not
15
        finalized, given this discussion.
16
17
             If you could comment on that, that
18
        will go into our factors.
19
              MR. REESE: You are seeking economic
20
        value?
21
              MR. FAY:
                        It seems like you are
       ascribing value; otherwise, we will talk
22
23
       about it. I would like to know what that
       value is.
24
25
              MR. LYONS:
                          I think procedurally we
```

stated that it is an enhancement right now on the terms.

I believe the value of that
enhancement becomes relevant if the other
bidder decides to bid against that
enhancement, and if they decide not to,
to agree to that term change and,
instead, wanted to try to enhance price,
at that point, I think we would need to
ascribe an economic value to it. I
think, at this stage, it is premature.

So, either -- I guess the question is, is @Road willing to include that as part of the \$7.7 million bid or not? If not, we can discontinue. And, if so, we will continue with that enhancement.

MR. MEHOK: Would you focus, or point to the section of the sale order.

MR. LYONS: I don't have a copy.

MR. REESE: It would be paragraph 17 on page 13 of the sale approval order that was filed as an exhibit to the sale motion.

MS. IZURIETA: Say that one more

```
1
 2
        time.
 3
              MR. REESE: It is paragraph 17 on
 4
        page 13.
 5
              A PARTICIPANT: The order is in
 6
        Exhibit 4.
 7
              MR. REESE: It is in Exhibit 4,
        roughly halfway through.
 8
 9
             I would also direct you to paragraph
10
        R on page 8.
11
              MS. IZURIETA:
                              Paragraph R what?
12
              MR. REESE:
                           On page 8.
13
              MS. IZURIETA:
                              Thank you.
14
              MR. FAY:
                         It is @Road's view that
15
        the eliminating of this term does have
16
        real economic value, and I do see it as
        somewhat significant and important, so it
17
        is a part of our calculations; so, we
18
19
        would ask that, if we were to make this
20
        enhancement, it would be considered, of
21
        course, given that value.
22
             With that, I would like to confirm
23
        that our subsequent bid is $7.7 million,
24
        and we would make the proposed
25
        enhancement --
```

1						
2	MR. BAER: Could you speak up. Did					
3	you say that you would					
4	MR. FAY: We would delete the					
5	schedule as requested. Did you hear					
6	that?					
7	MR. BAER: Delete the schedule.					
8	MR. FAY: Delete the schedule that					
9	was requested.					
10	MR. BAER: Thank you.					
11	MR. REESE: The bid is, then, \$7.7					
12	million and we will remove schedule					
13	6.2.5. Section 6.2.5.					
14	MR. FAY: Therefore, we would					
15	include in this subsequent bid that					
16	enhancement and the value that ultimately					
17	we expect would be ascribed to it.					
18	MR. REESE: Very good. Thank you.					
19	MR. LYONS: And all other terms of					
20	that bid are in force.					
21	MR. FAY: I confirm that, yes.					
22	MR. REESE: All right. MobileAria's					
23	view would be that @Road's bid would					
24	constitute a higher or otherwise better					
25	subsequent bid and would now constitute					

1						
2	the highest or otherwise best bid					
3	currently on the table at auction. We					
4	would then turn to Wireless Matrix.					
5	MR. ROGOFF: Putting aside the					
6	characterization of @Road's bid by @Road					
7	will bid 7.8 million . No other changes					
8	to our contract.					
9	MR. REESE: You will not modify					
10	schedule 6.2.5?					
11	MR. ROGOFF: That is not a part of					
12	our bid, at this point.					
13	MR. LYONS: We can take a break.					
14	MR. REESE: We will take a short					
15	recess and reconvene in five or 10					
16	minutes.					
17	MR. ROGOFF: Done. Thank you.					
18	(Recess.)					
19	(Time noted: 3:22 p.m.)					
20	MR. REESE: Back on the record. The					
21	auction for MobileAria.					
22	We are back on the record to report					
23	that I believe, and I will ask for					
24	confirmation of this from Wireless					
25	Matrix' designated representative, that					

there are two modifications to the bid previously made by Wireless Matrix in the amount of \$7.8 million and those two remissions are first, with respect to section 4.3 of the asset sale and purchase agreement, and there is new language of section 4.3 which would replace the existing 4.3 in its entirety, and we would mark that new language as Exhibit 6.

So, that new language that we just marked as Exhibit 6, and I believe that we shared with everyone in the room, would be the first modification.

The second modification would be to section 6.2.5 of the asset sale and purchase agreement, and that modification would be to add, at the beginning of that section, the following language.

"Except as expressly obviated by the terms of the sale approval order," and the language of that section would then continue.

Can the designated representative

for Wireless Matrix please confirm that
those two items just described are
modifications to your bid, all other
terms of your previous bid remain in
force and effect.

MR. ROGOFF: Yes. I will confirm

MR. ROGOFF: Yes. I will confirm that those two modifications are acceptable changes to the form of our agreement in addition to the \$7.8 million bid that we previously offered.

MR. REESE: Okay. All other terms of that bid are the same?

MR. ROGOFF: Are the same.

MR. REESE: Very good.

At this point, based upon those representations on the record, MobileAria would determine that to be a higher or otherwise better bid for the assets of MobileAria, and that would constitute a qualifying bid, and would be the highest or otherwise best bid currently on the table at this point in time.

MR. LYONS: Would the parties like to take a recess?

MR. FAY: If I could ask a question first.

First, in our prior bid, we suggested that we might eliminate the required consensus schedule, and I was curious whether MobileAria had ultimately ascribed any value to that.

MR. REESE: We did believe that that had an economic value; however, we believe that the revisions made by Wireless Matrix to section 6.2.5, which deals with that issue, do adequately address the same concerns.

MR. FAY: All right. And then, second, and for clarification, I am wondering whether there is a value that has been ascribed to the proposed 4.3 language which is now Exhibit 6.?

MR. REESE: We do believe that there is value, and we have not ascribed a specific monetary value to that.

MR. FAY: So, I should think of the current bid as really 7.8 million plus -- certain enhancements, as changed?

```
1
 2
              MR. REESE:
                          That is correct.
 3
              MR. FAY: Okay.
 4
              I think, then, we would like to take
 5
        a recess and have an opportunity to
 6
        review the document.
 7
              MR. REESE: Any comments from any
 8
        other parties on the record before we
 9
        take a recess?
10
             (Pause.)
11
              MR. REESE: Hearing none, I think
12
        that we would take a recess.
13
             We are off the record.
14
             (Recess.)
15
              (Time noted: 6:11 p.m.)
16
              MR. REESE: Back on the record.
17
             And I believe where we are at
18
        currently is the current highest or
        otherwise best bid is the bid of Wireless
19
20
       Matrix, who would now open the floor to
21
        @Road and ask whether or not you intend
        to make any further bid?
22
23
                        We would like to make a
              MR. FAY:
24
        further bid, and that bid would be that
25
       we would agree to prior bids changed to
```

```
1
 2
        section 6.2.5, which included the
 3
        language, I believe, that started at --
 4
        that started as, started with "except as
 5
        expressly obviated by the terms of the
 6
        sale approval order, " and I think that
 7
        that also meant that this would be,
        therefore, part of our bid that the
 8
 9
        schedule 6.2.5 would be reinserted into
10
        the agreement and, in addition, our bid
11
        would include the, I guess we will call
12
        it the rider to section 4.3.
13
              MR. REESE:
                          Which, I think, we would
        like to mark as Exhibit 7, and if you
14
15
        can -- authenticate that, in fact, that
16
        is an accurate copy of that language.
17
              MR. FAY:
                        Thank you.
18
             Exhibit 7 looks as though it is an
19
        accurate copy of what we propose, but we
20
       may take a couple minutes later to just
21
        confirm that that is the case.
22
              MR. REESE:
                          Thank you. You can do
23
        it now.
24
              MR. FAY:
                        Okay.
25
             (Pause.)
```

```
1
 2
              MR. FAY: With respect to Exhibit 7,
        we would like to just make one revision.
 3
 4
              MR. LYONS: You can mark it.
 5
              MS. SHULMAN:
                            All right.
 6
              MR. LYONS:
                          If you would like to
 7
        look at the exhibits before they go in.
              MR. BAER: We would like to see
 8
 9
        whatever changes they make.
10
              MR. FAY:
                        To clarify, the provision
11
        that we are making is on page 2, first
12
       paragraph, revision -- it would now read:
13
        "Regarding purchaser's acquisition of
14
        inventory from Delphi under this section,
15
       purchaser shall have the same rights
16
       under the Prolificx' agreement as seller,
17
        including warranty rights that Delphi and
18
       its affiliates have as buyers against
       Prolificx."
19
                     Okay.
20
              MR. REESE: We will mark Exhibit 7,
21
       the revised language. Do you want to
       look at it?
22
             MS. IZURIETA: I have it.
23
                                          Thank
24
       you.
                        The final element of the
25
             MR. FAY:
```

1 2 bid is, we would change or raise the 3 purchase price to \$7.9 million, which, I 4 believe, unless I had forgotten my math 5 since 11 a.m., that is a qualifying 6 subsequent bid. 7 MR. REESE: Okay. Just to confirm, 8 all other terms of your bid, other than 9 those that you have expressly laid out, 10 have remained the same since your prior bid? 11 12 MR. FAY: That is correct. 13 MR. REESE: With those changes, 14 having reviewed the language of section 15 4.3, as you have proposed it, MobileAria 16 would conclude that that, the language of 17 4.3 you have proposed is substantially 18 equivalent to the language of 4.3 19 proposed by Wireless Matrix and, 20 therefore, we would conclude that is 21 a higher or otherwise better offer and 22 would qualify as a subsequent bid. 23 MR. FAY: Thank you. 24 MR. REESE: Therefore, @Road has the

highest or otherwise best offer for the

1 2 assets. 3 I think we will now look to Wireless 4 Matrix, if you have a response. 5 MS. IZURIETA: We require --6 MR. ROGOFF: First of all, just as a 7 standing for the record, unless I note 8 otherwise. MobileAria bids --9 10 (Pause) 11 All right. 12 Unless otherwise stated for the 13 record, all terms and conditions of our 14 bid will remain the same, except as I 15 expressly note, at least for our bid, and 16 I assume for theirs, as well, they can 17 confirm this, so you don't always have to 1.8 ask if it remains unchanged, and I will 19 tell you what changes. Having said that, we are going to 20 21 adopt the modified section 4.3, which I 22 guess is Exhibit 7; however, we are going 23 to change the wording of the paragraph on the second page, not necessarily using 24

the wording that was just read into the

1.1

record, but using different wording,
which I will read to you and then show
you, and it is working with the existing
wording that you had there, but adding to
the end of it, where it says "against
Prolificx," and then adding the clause
"or otherwise arising under the
Prolificx' agreement, including without
limitation, transfer of title and
invoicing and payment terms."

With that modification, we would work with, adopt this new section of 4.3, which, I guess, technically would become an Exhibit 8, since we modified the language even further, and raise our bid to 8 million.

MR. REESE: One second. We will mark the black line page as Exhibit 8, as reflected. And having reviewed that language, we don't believe that that, the post language changes the economic value of your bid; therefore, we would determine that your bid of \$8,000,000, with that revision, would constitute a

```
1
 2
        higher or otherwise better offer, and a
 3
        qualifying subsequent bid.
 4
             We will now turn to @Road.
 5
              MR. FAY: We would like to take a
 6
        couple of minutes, a short recess, and
 7
        then come back to you.
 8
              MR. REESE:
                         Okay.
 9
              MR. ROGOFF: Can we get a
10
        clarification, with all due respect, to
11
        all of us who have taken breaks, and we
12
        have all done it today; but at this
13
        point, can we keep these breaks fairly
14
        short?
15
                              That would be fine.
              MR. FAY:
                       Yes.
              MR. REESE:
16
                          With that, we will go
17
        off the record.
18
              (Recess.)
                          Back on the record.
19
              MR. REESE:
20
             Back on the record, and I think the
21
        floor is yours.
22
              MR. FAY:
                        Okay. So, we would like
23
        to start by saying that unless we specify
24
        otherwise, all of the terms and
25
        conditions of our prior bid will continue
```

```
1
        in any subsequent bid. So, we will try
 2
 3
        to be specific about any changes.
 4
             So, in light of that, what we would
 5
        like to do is we would like to adopt the
 6
        proposed change to section 4.3 that was
 7
        outlined in Exhibit 8, and so our new bid
 8
        would be with Exhibit 8, and it would be
 9
        at a purchase price of 8.1 million.
10
                          Okay. Very good.
              MR. REESE:
                                              That
11
        would constitute a higher or otherwise
12
        better offer and a qualifying subsequent
13
       bid.
14
             We will turn to --
15
              MR. ROGOFF: 8.2 million.
16
              MR. REESE: That would also be a
17
       higher or otherwise better offer.
1.8
                        Okay. So, we will enjoy a
              MR. FAY:
19
       brief recess and we will be back.
              MS. SHULMAN: We will do what we did
20
21
       before.
22
              MR. REESE: Off the record.
23
              (Time noted: 6:30 p.m.)
24
              (Recess.)
25
              MR. REESE: Back on the record.
```

```
1
 2
             MR. FAY: So, we would like to make
 3
        a subsequent bid in the amount of $8.5
        million.
 4
 5
              MR. REESE:
                          Okay. Given that we are
 6
        just going on the price, I think we will
 7
        forego the formality of saying higher or
 8
        otherwise, and it is clear in terms of
        Wireless Matrix.
 9
10
              MR. CARLSON: We would like to
11
        caucus about this bid; so, we need ten
12
        minutes.
13
              MR. REESE: All right. We will
14
        recess.
15
              (Recess.)
16
              MR. ROGOFF: Wireless Matrix bids
17
        8.8 million.
18
              MR. REESE:
                          @Road?
              MR. FAY: We would like to take a
19
20
        caucus for a few moments.
21
              MR. REESE:
                          Off the record.
22
              (Recess.)
23
              MR. REESE: Back on the record.
24
              MR. FAY: @Road would like to make a
       subsequent bid at $9.1 million.
25
```

```
1
 2
              MR. REESE:
                           Okay.
 3
              MR. ROGOFF:
                            Wireless Matrix bids
 4
        9.5.
 5
              MR. REESE:
                           Thank you.
 6
              MR. FAY: We would like to take a
 7
        recess.
 8
             Thank you.
 9
              MR. REESE: Off the record.
10
              (Recess.)
11
              MR. REESE: Back on the record.
12
              MR. FAY: So, @Road would like to
13
        make a subsequent bid at $10,000,000.
14
              MR. REESE:
                           Thank you.
15
              MR. CARLSON: We would like to
16
        caucus.
17
              MR. REESE: Off the record.
18
              (Recess.)
19
              MR. ROGOFF: Wireless Matrix bids
        10.2 million.
20
21
              MR. REESE: 10.2 million. All
22
        right.
23
              MR. FAY: We would like to take a
       brief recess.
24
25
              MR. REESE: Good.
```

```
1
             Off the record.
 2
 3
               (Recess.)
 4
              MR. FAY:
                       Okay.
 5
              MR. REESE:
                           Back on the record.
 6
              MR. FAY: @Road would like to make a
        subsequent bid at $10.5 million.
 7
 8
              MR. CARLSON: Do you want to caucus?
 9
             (Pause.)
10
              MR. ROGOFF: We would like to
11
        request a brief recess, and we would also
12
        like to speak with the debtor for a
13
        moment.
14
              MR. REESE:
                          Okay. Very good.
15
             Off the record.
16
              (Recess.)
17
                          Back on the record.
              MR. REESE:
18
              To summarize the discussion that we
19
        had off the record, we had a request from
20
        Wireless Matrix to consider two bid
21
        enhancements, the first of which was to
22
       provide a value for a commitment to
23
       purchase a certain number of units within
       a set time frame, and in a guarantee of
24
25
       certain purchases that are of the 6,228
```

1 units referenced in section 4.3. 2 3 The debtor has decided that the 4 value would be \$250 per unit, with 5 respect to any commitment, such that a 6 commitment for each thousand units would 7 be, would have a value of \$250,000. 8 The second --9 MR. HART: Within one year. 10 MR. REESE: Within one year. That 11 was the set time. 12 The second point was, a request for 13 the value of a change to section 4.3 to 14 remove the limitation with respect to 15 only providing certain customers that are 16 enumerated in that section, the debtors had determined, at this time, that they 17 18 do not believe that there would be an economic value associated with that 19 20 change. 21 Those were the two issues. MR. LYONS: I think that summarizes 22 23 it. I think it summarizes MR. REESE: 24 25 it. So, we, at this point, I believe it

1						
2	would be Wireless Matrix' opportunity to					
3	bid.					
4	MR. ROGOFF: At this time, Wireless					
5	Matrix will bid \$10.7 million, no other					
6	changes in the contract. Thank you for					
7	the clarification.					
8	MR. REESE: Very good.					
9	MR. FAY: We would like to take a					
10	brief recess.					
11	MR. REESE: All right.					
12	Off the record.					
13	(Recess.)					
14	MR. REESE: Back on the record.					
15	MR. FAY: @Road would like to make a					
16	new subsequent bid at \$11 million. There					
17	are no other changes.					
18	MR. CARLSON: I want to caucus.					
19	MR. ROGOFF: All right.					
20	MR. REESE: We will take a recess at					
21	this time.					
22	(Recess.)					
23	MR. REESE: Back on the record.					
24	MR. ROGOFF: Wireless Matrix is					
25	bidding \$11.7 million, consisting of the					

1 2 following: It will be \$11.2 million with 3 respect to the purchase price, and it 4 will be a guarantee with respect to section 4.3 of the agreement, to take 5 2,000 units within the one-year period. 6 7 Previously, on the record, the debtor identified that the value was 8 9 \$250,000 per thousand units. Since we 10 are taking 2,000 units, that is \$500,000 11 of value from the quarantee, plus going 12 up from 11 to 11.2, for a total value of 13 our bid of \$11.7 million. 14 MR. FAY: We would like to take a 15 recess. 16 MR. REESE: Off the record. 17 (Time noted: 8:00 p.m.) 18 (Recess.) MR. REESE: Back on the record. 19 20 MR. LYONS: We will mark this as the 21 next exhibit. Back on the record. 22 I would like to hand to both bidders 23 what is now Exhibit 9, which is a black 24 line reflecting all changes to section

4.3 that @Road submitted a couple hours

```
1
 2
        ago or so.
 3
             If you guys could take a look at
 4
        that.
 5
              MR. FAY:
                        Thank you.
 6
             (Pause.)
 7
              MR. LYONS:
                          If both bidders could
 8
        confirm that that is the section 4.3 that
 9
        is part of both current bids and
10
        subsequent bids.
11
              MS. IZURIETA: They have not bid
12
        yet.
13
              MR. LYONS:
                          Subsequent. Previous
14
        bids or subsequent bids. @Road confirms
15
        that this is the section, section 4.3.
16
              MR. FAY: @Road confirms that that
        is the new section 4.3, the Exhibit 9.
17
18
              MR. ROGOFF: Wireless Matrix also
        confirms.
19
20
              MR. LYONS: Mark this.
21
              MR. REESE: We are back to the
        further bids.
22
23
              MR. FAY:
                        Okay.
             @Road would like to provide the
24
       following bid, which is: We would agree
25
```

1							
2	to Exhibit 9 and we would bid, then,						
3	\$11.4 million, which, if I have got my						
4	math correct, is a \$200,000 incremental						
5	increase to the prior bid.						
6	MR. REESE: That would include the						
7	commitment in 9 for a guarantee of 2,000						
8	units?						
9	MR. FAY: Correct.						
10	MR. REESE: The 11.4 in cash						
11	consideration.						
12	MR. FAY: That is correct.						
13	MR. LYONS: The value from the						
14	estate's perspective, as indicated to the						
15	parties, would be 11.9 in the aggregate.						
16	MR. CARLSON: We would like to						
17	caucus.						
18	MR. REESE: Off the record.						
19	(Recess.)						
20	MR. REESE: Back on the record.						
21	MR. ROGOFF: Wireless Matrix has no						
22	further bids.						
23	MR. REESE: Okay.						
24	Any further comments from any						
25	parties on the record?						
i							

1 2 (Pause.) 3 Hearing none, I think we will take a recess to have a short caucus and then 4 5 come back. 6 MR. LYONS: It will be short. 7 (Recess.) 8 MR. REESE: Back on the record. 9 Upon Wireless Matrix' previous statement 10 that they intend to make no further bid, 11 we have caucused internally and with our 12 creditor constituencies and have 13 determined that @Road's final bid of 14 11.4 million in cash, including a 2,000 15 unit guarantee and all of the other terms and conditions that have been described 16 17 on the record, constitutes the highest 18 score and the otherwise best bid for the assets of MobileAria, subject to the 19 20 approval of our board and a Court 21 approval of that transaction at the sale 22 hearing, and entry of an order providing 23 for those terms. 24 We have also determined that,

pursuant to the bidding procedures, the

```
1
 2
        final bid of Wireless Matrix will
        constitute the alternate bid that we will
 3
 4
        seek approval of at the hearing, should
 5
        we not close the transaction with @Road.
             And again, all these decisions
 6
 7
        remain subject to board approval, which
 8
        we intend to seek tonight at a meeting
 9
        with our board of directors, and subject
10
        to Court approval, pursuant to the terms
11
        of the bidding procedures order, and with
12
        that, the auction is concluded.
13
              MR. LYONS: Any comments from the
14
        parties, either the bidders or the
        creditors
15
16
                            Thank you for sitting
              MS. SHULMAN:
17
        here today, to both parties, also.
              MR. LYONS: On behalf of MobileAria
18
19
        absolutely.
20
             Thank you, both @Road and Wireless
21
       Matrix for participating in the process.
             Off the record.
22
23
              Thank you.
              (Time noted: 8:30 p.m.)
24
25
